& Global Markets

KOMITZ GmbH

KOMITZ

Company Overview

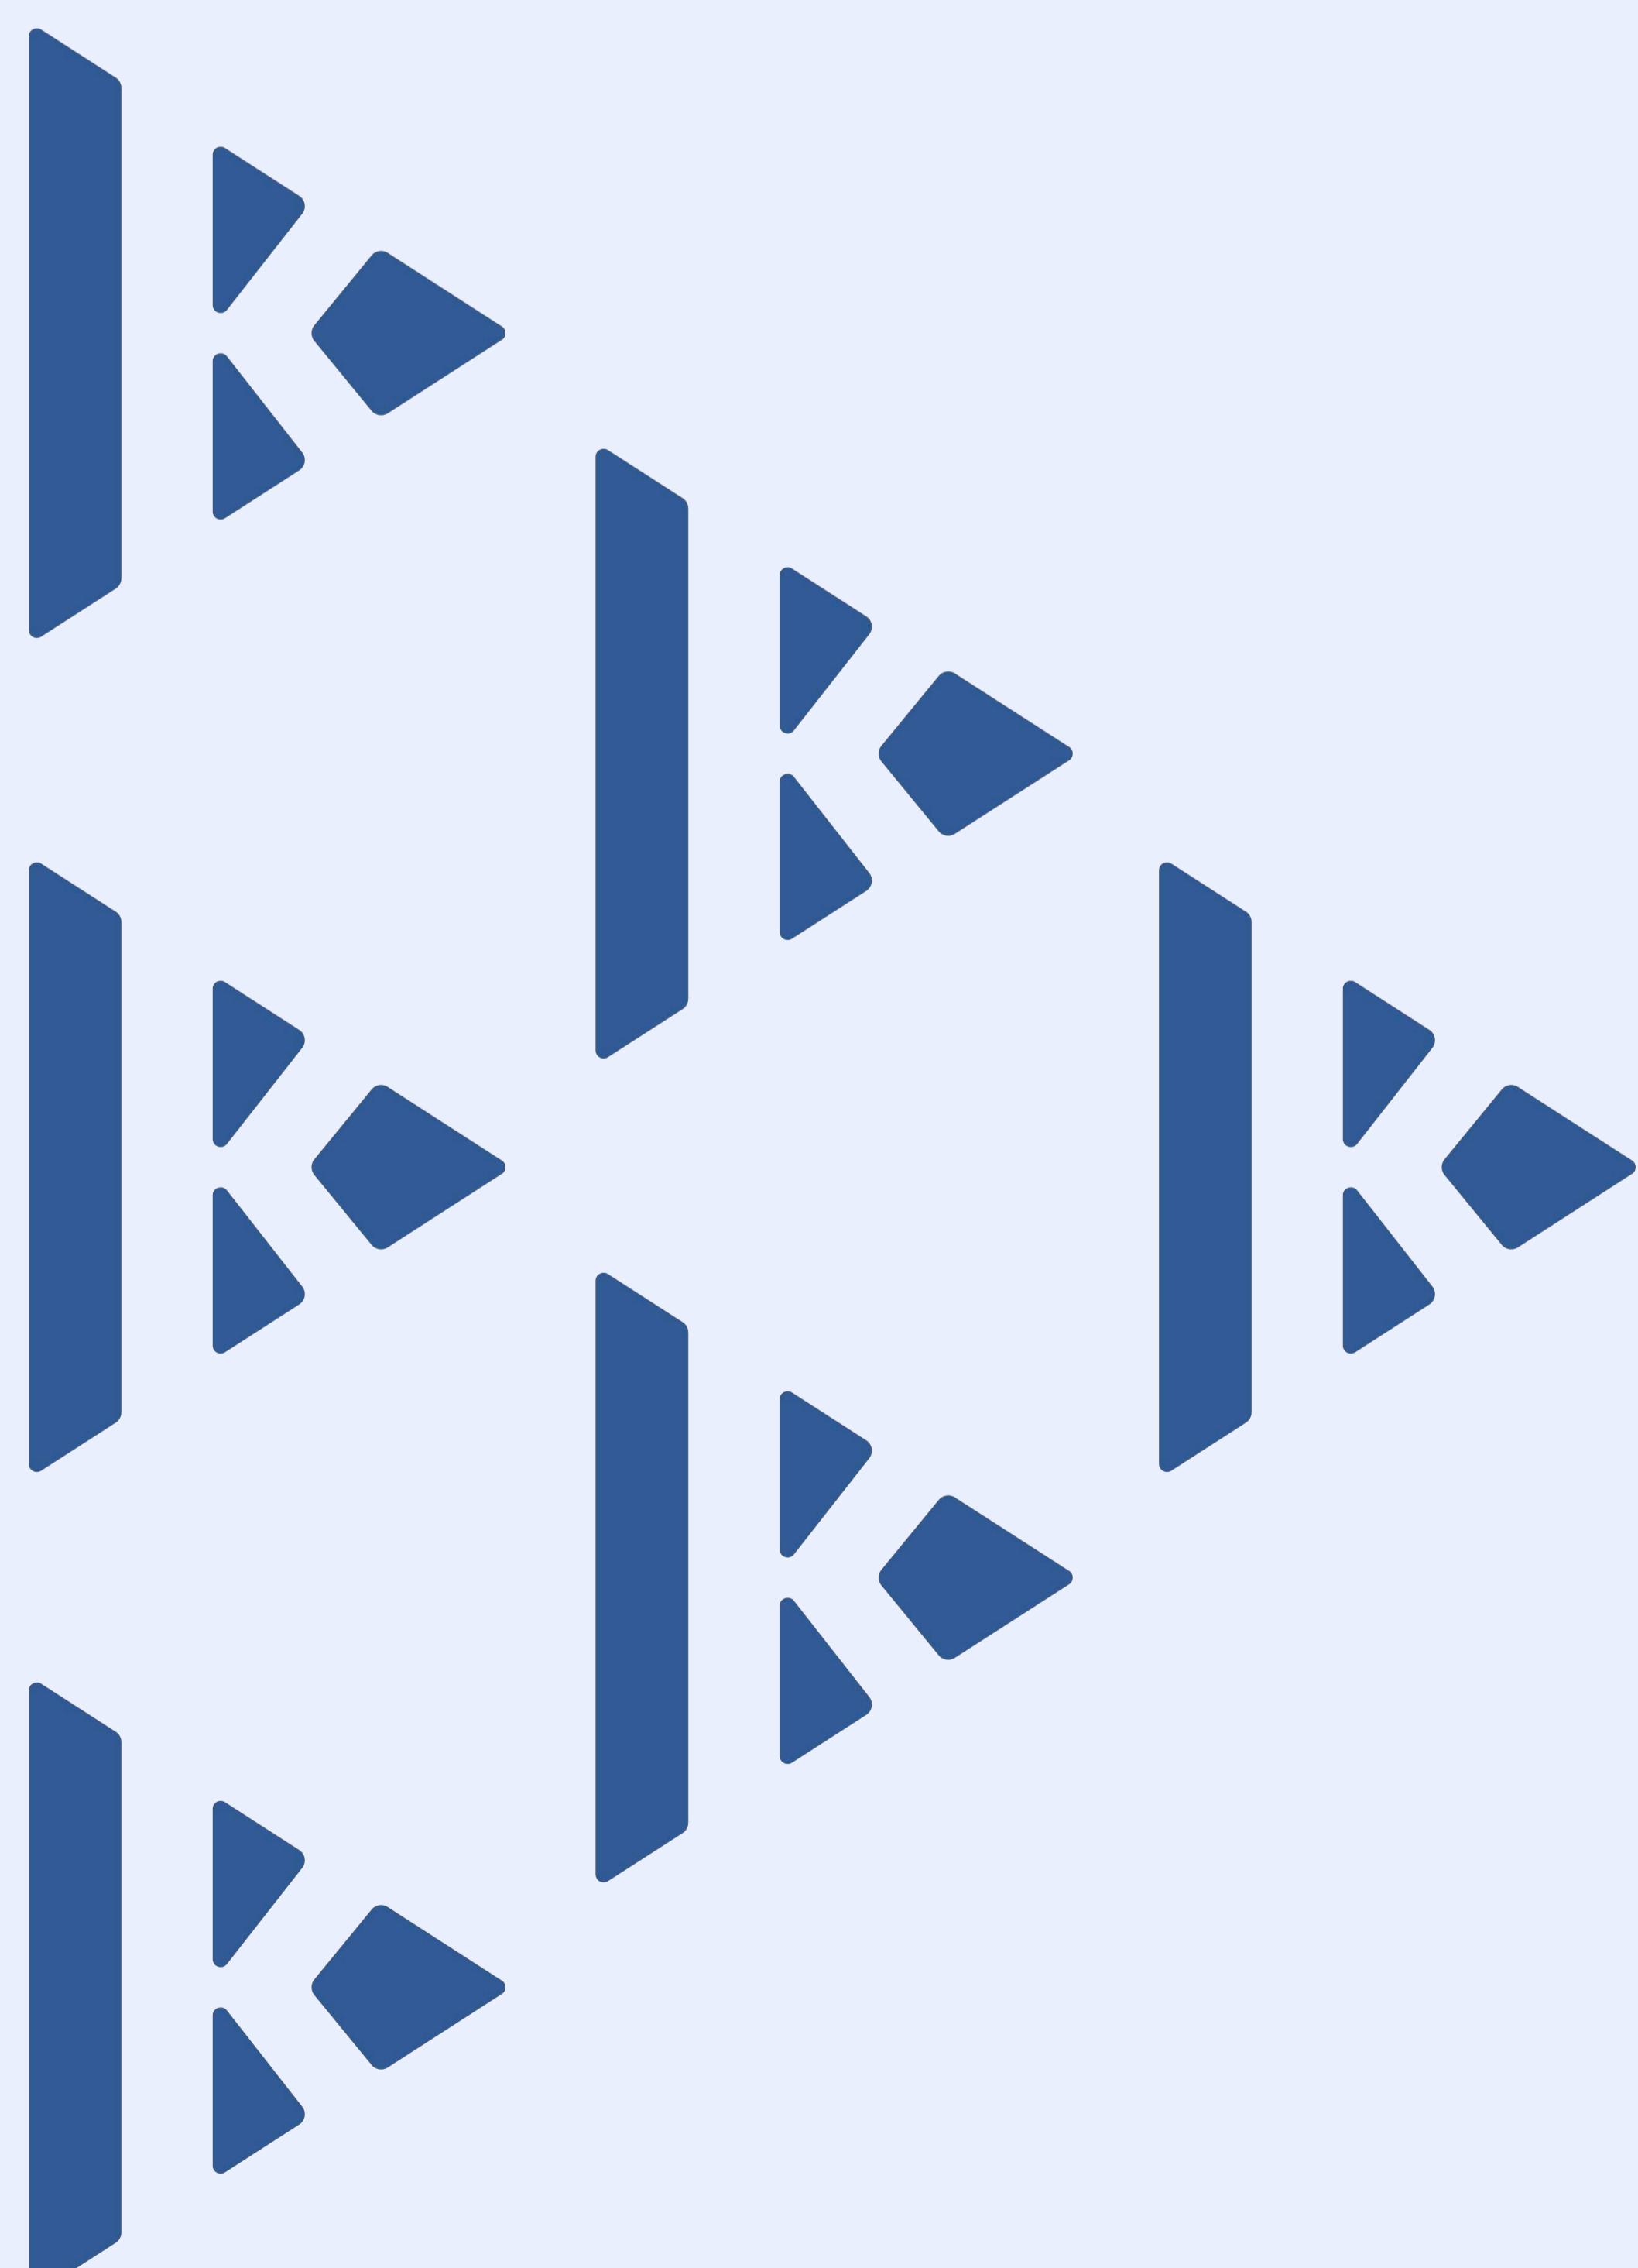

KOMITZ GmbH is a European-based engineering and industrial supply company. We specialize in design, procurement, integration, and support of complete systems and packages for the oil & gas, energy, utilities, and heavy industries.

In addition to our supply capabilities, KOMITZ provides engineering services including basic engineering, detailed design, and procurement support. We serve E/EPC/PC/C projects as a trusted consultant or engineering packager.

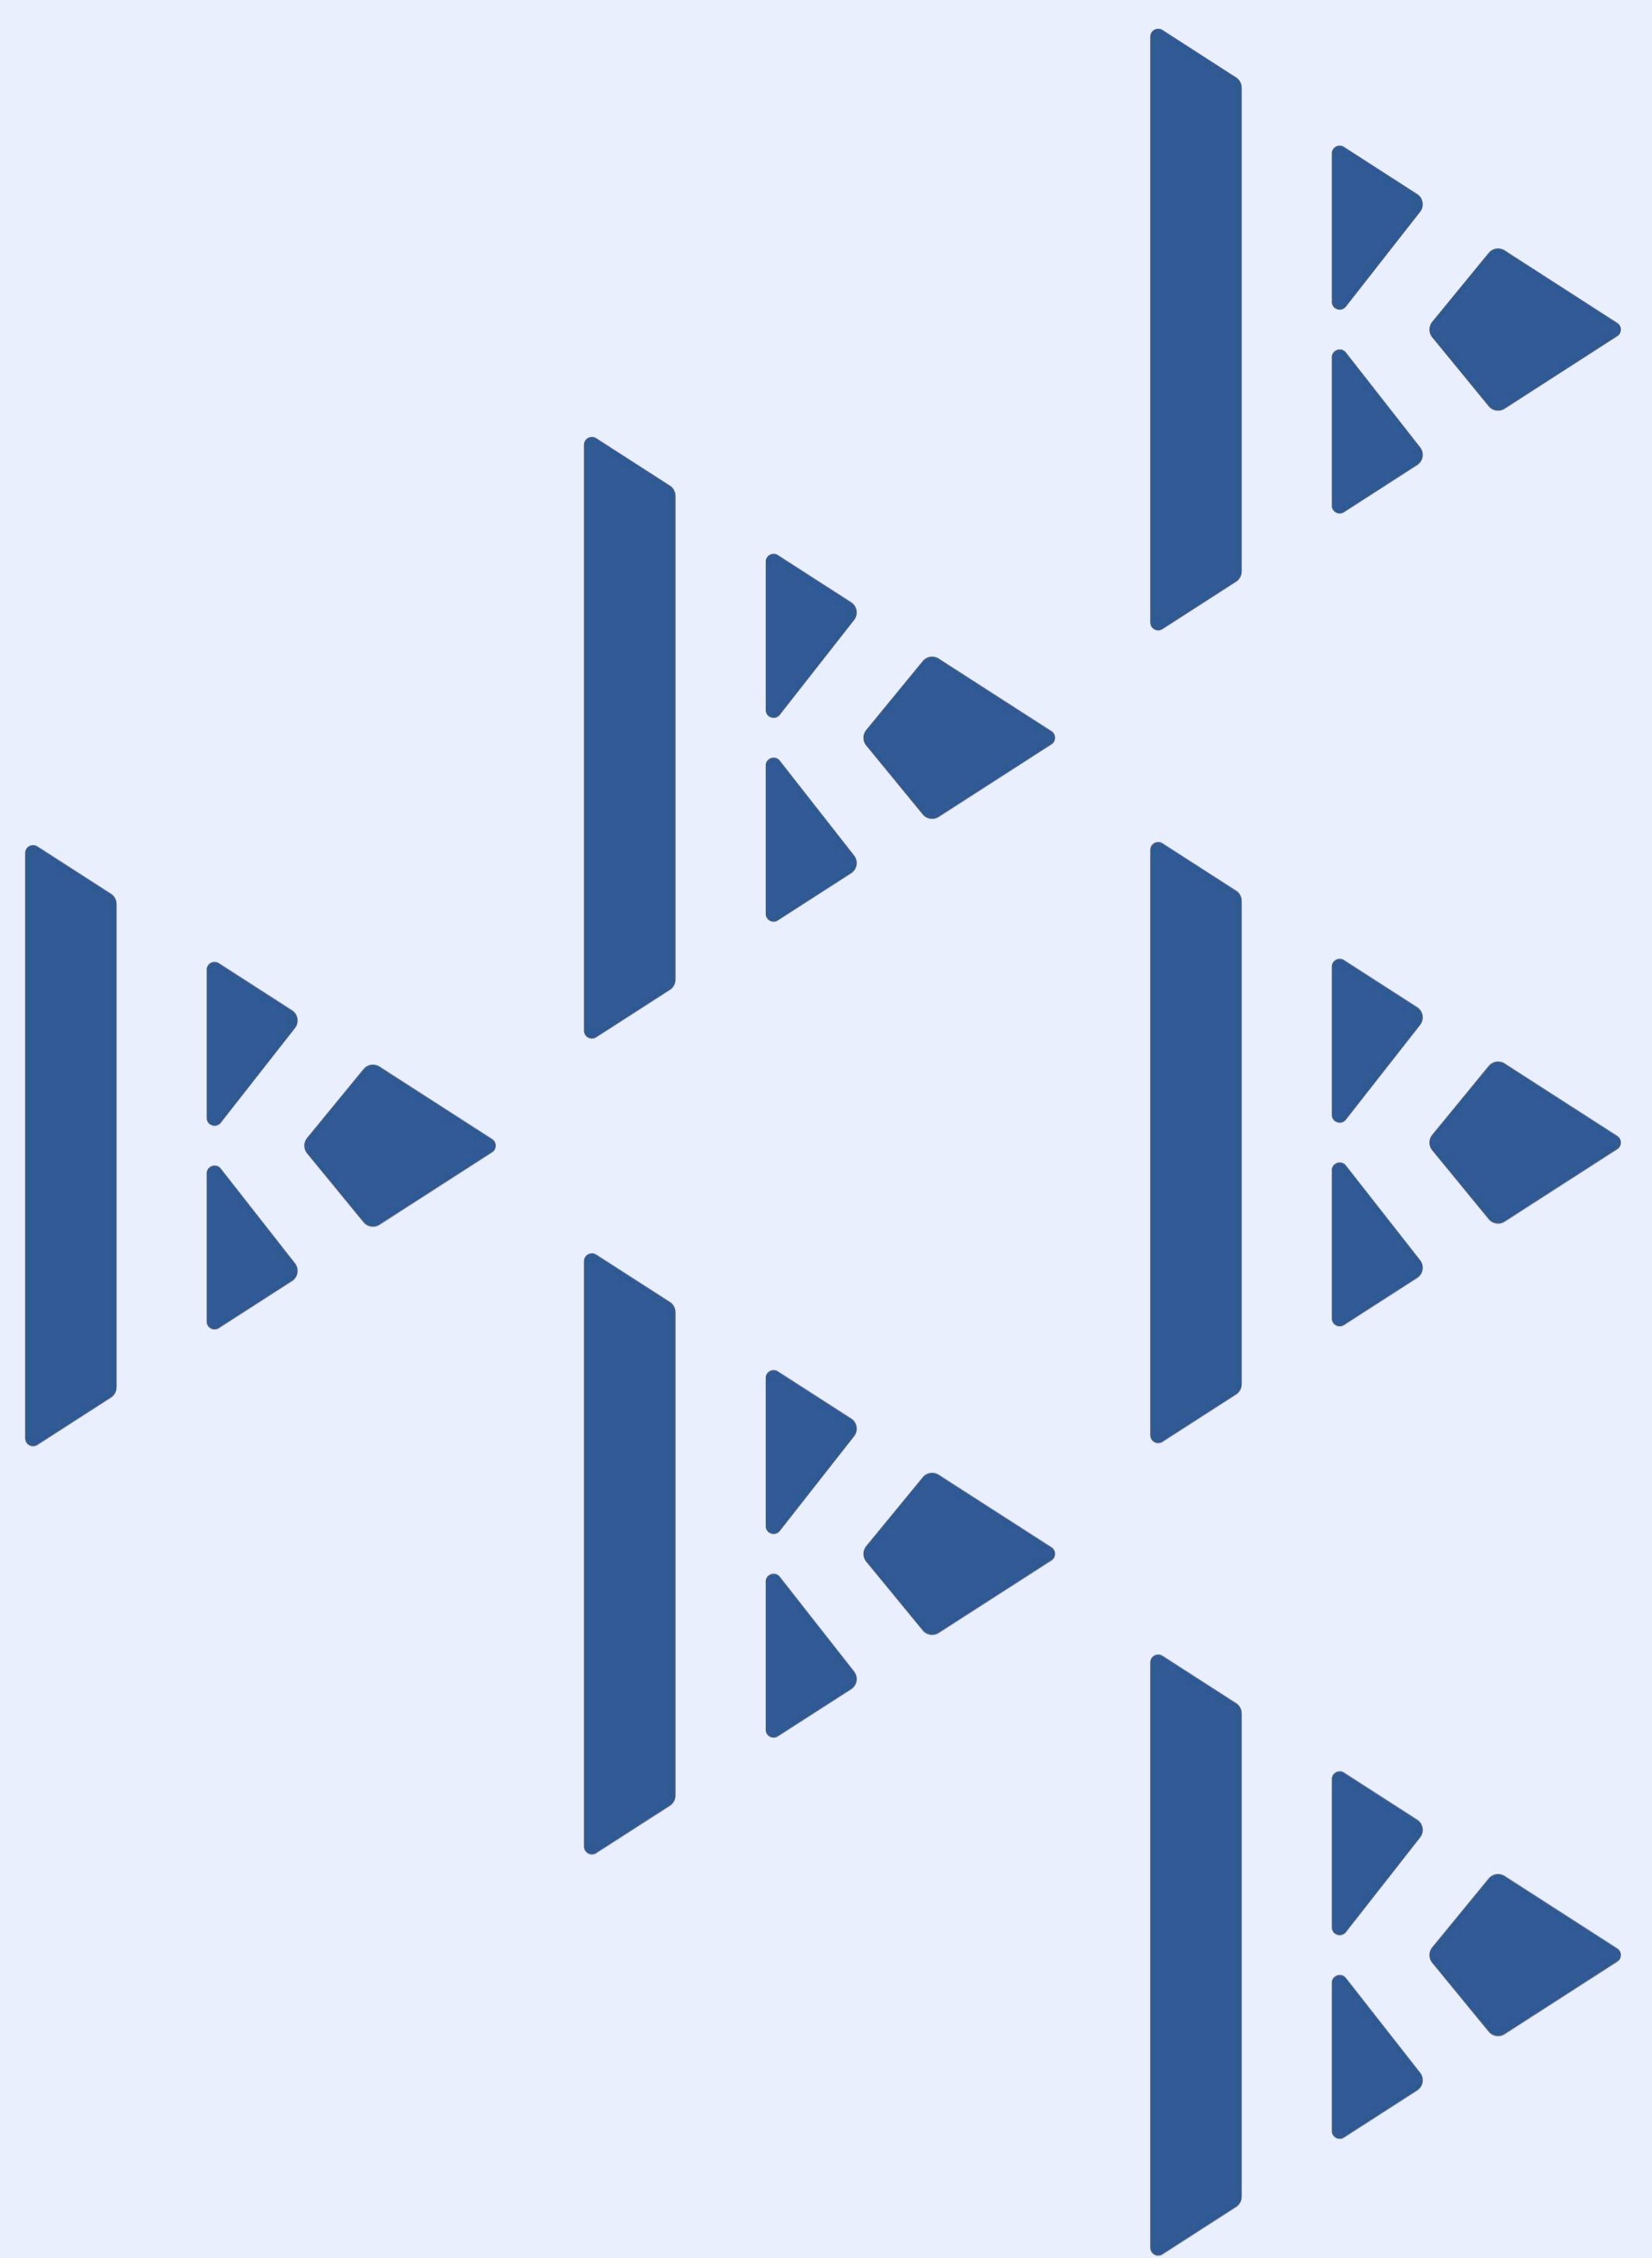

Whether managing a greenfield or retrofit project, KOMITZ delivers performance, reliability, and long-term value — with German engineering excellence across EMEA and beyond.

Company Overview

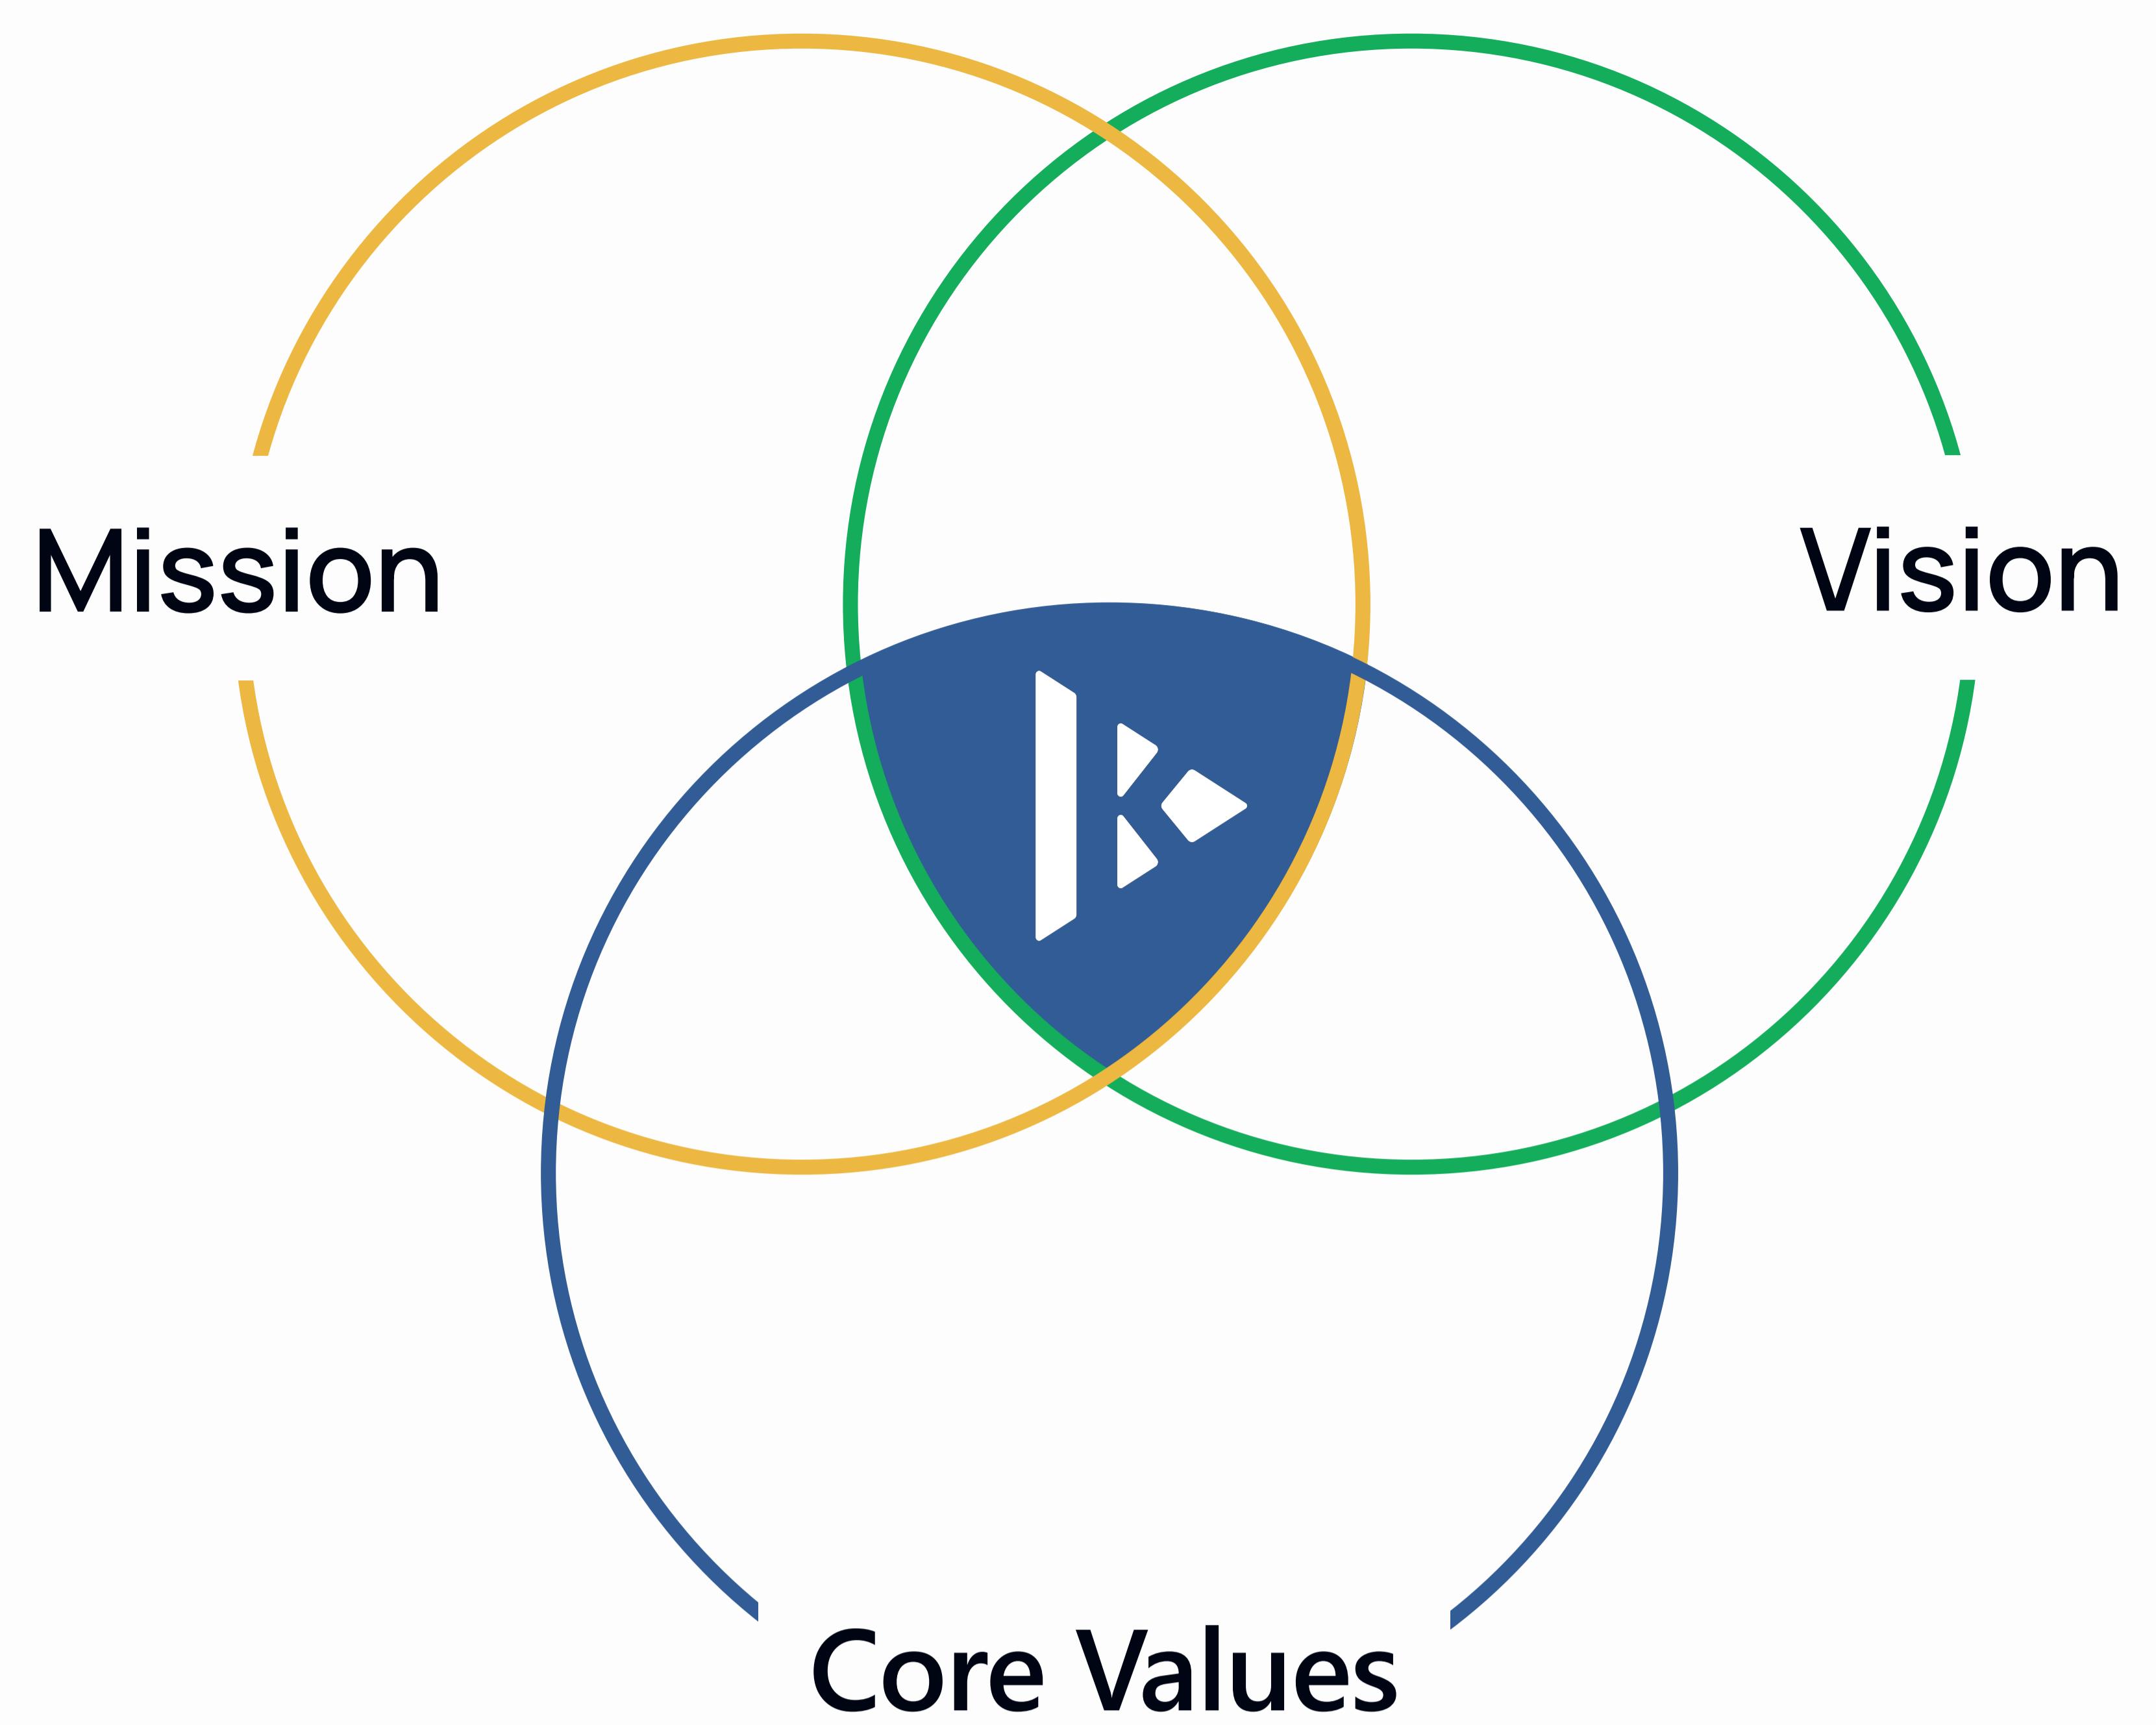

KOMITZ

Company Overview

We deliver integrated systems and packages, supported by cutting-edge design, procurement, and supply services — ensuring maximum value for every project.

Mission

Our mission is to deliver certified supply solutions that empower critical infrastructure and industrial projects — through expertise, operational excellence, and lasting partnerships.

Vision

Our vision is to become the leading EMEA-wide partner for industrial supply and engineering services — recognized for German precision, reliability, and responsiveness in the most demanding environments.

Core Values

To deliver engineered and certified supply solutions that empower critical infrastructure, energy, and industrial projects — through technical expertise, operational excellence, and long-term partnership.

Integrity

We uphold the highest standards in engineering, sourcing, and customer service to benefit our clients.

- We act with honesty, fairness, and full compliance in every project.

Excellence

Reliability

We embrace smart solutions, digital tools, and new technologies to drive efficiency and innovation.

- We deliver on time, on spec, and on budget — always.

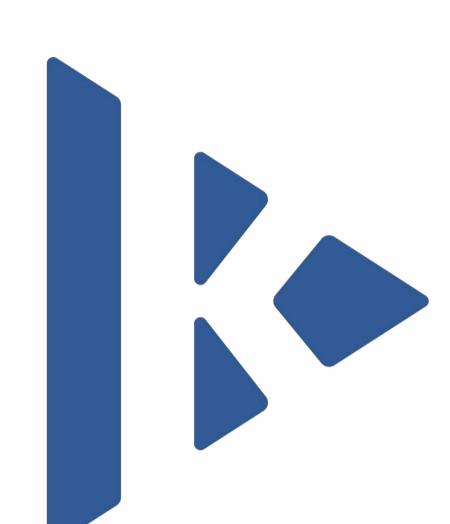

Innovation

Customer Focus

We guarantee all supplied systems and services meet the highest global safety and quality standards.

- We build long-term partnerships by deeply understanding and actively supporting our clients' goals.

Safety & Compliance

After Sales & Support

Procurement & Sourcing

At KOMITZ GmbH, our commitment goes far beyond delivery — ensuring lasting reliability and support. We provide comprehensive aftersales support to ensure that every system, component, or package we supply performs reliably throughout its operational life. Our team provides technical assistance, spare parts management, and remote or on-site support — minimizing downtime and ensuring maximum efficiency.

With our engineering expertise and system knowledge, we quickly troubleshoot issues, support integration, and coordinate with OEMs when required. For long-term operations, we provide preventive maintenance, system updates, and documentation services — keeping your assets compliant, safe, and efficient.

Our Clients & References

At KOMITZ GmbH, we serve a diverse and demanding client base across the energy, infrastructure, and industrial sectors. Our customers include EPC contractors, system integrators, facility operators, and government and private end users involved in large-scale projects in oil & gas, power generation, utilities, transport, and critical infrastructure.

Whether supporting greenfield developments, upgrades, or urgent retrofit needs, our clients rely on us for fast, compliant, and technically sound supply and engineering services. We are proud to support both international organizations and regional leaders who value quality, responsiveness, and long-term partnership.

Beyond Business: Our Social Impact

At KOMITZ GmbH, we believe that engineering and technology should not only drive industrial progress but also contribute to the safety, dignity, and well-being of communities. Over the years, we have been trusted partners in projects funded by the European Commission and the United Nations, supporting initiatives in Jordan, Turkmenistan, Kyrgyzstan, and Tajikistan. Our involvement has included the supply and integration of systems for border control, critical infrastructure protection, and public safety enhancement. These experiences reflect our commitment to delivering solutions that serve both people and purpose — helping to create secure, resilient, and more connected environments across regions in need.

Why Choose Us

At **KOMITZ GmbH**, we offer more than just products — we deliver engineered supply solutions that are fast, flexible, and reliable. Our clients choose us because we consistently deliver value through a combination of technical strength, commercial flexibility, and supply chain agility.

01

Quick-Response Supply Chain

We are structured for speed — with real-time vendor access and efficient logistics that keep your projects on track.

02

Certified Global Network

Our sourcing network includes over **20,000+ principal vendors and OEMs**, enabling us to deliver certified products that meet **IEC, ISO, ATEX**, and other global standards.

03

Technical Credibility

Our **multi-disciplinary** team brings extensive experience across mechanical, electrical, instrumentation, and control disciplines — ensuring that all technical requirements are properly addressed.

04

Competitive Pricing & Flexible Bundling

We offer cost-effective solutions with the flexibility to **bundle equipment and packages** across disciplines, reducing both procurement effort and interface risks.

05

Comprehensive Product Database

We maintain an internal system of vetted suppliers, stockists, and specialized manufacturers — allowing us to respond quickly to a wide range of RFQs, including hard-to-source and custom items.

06

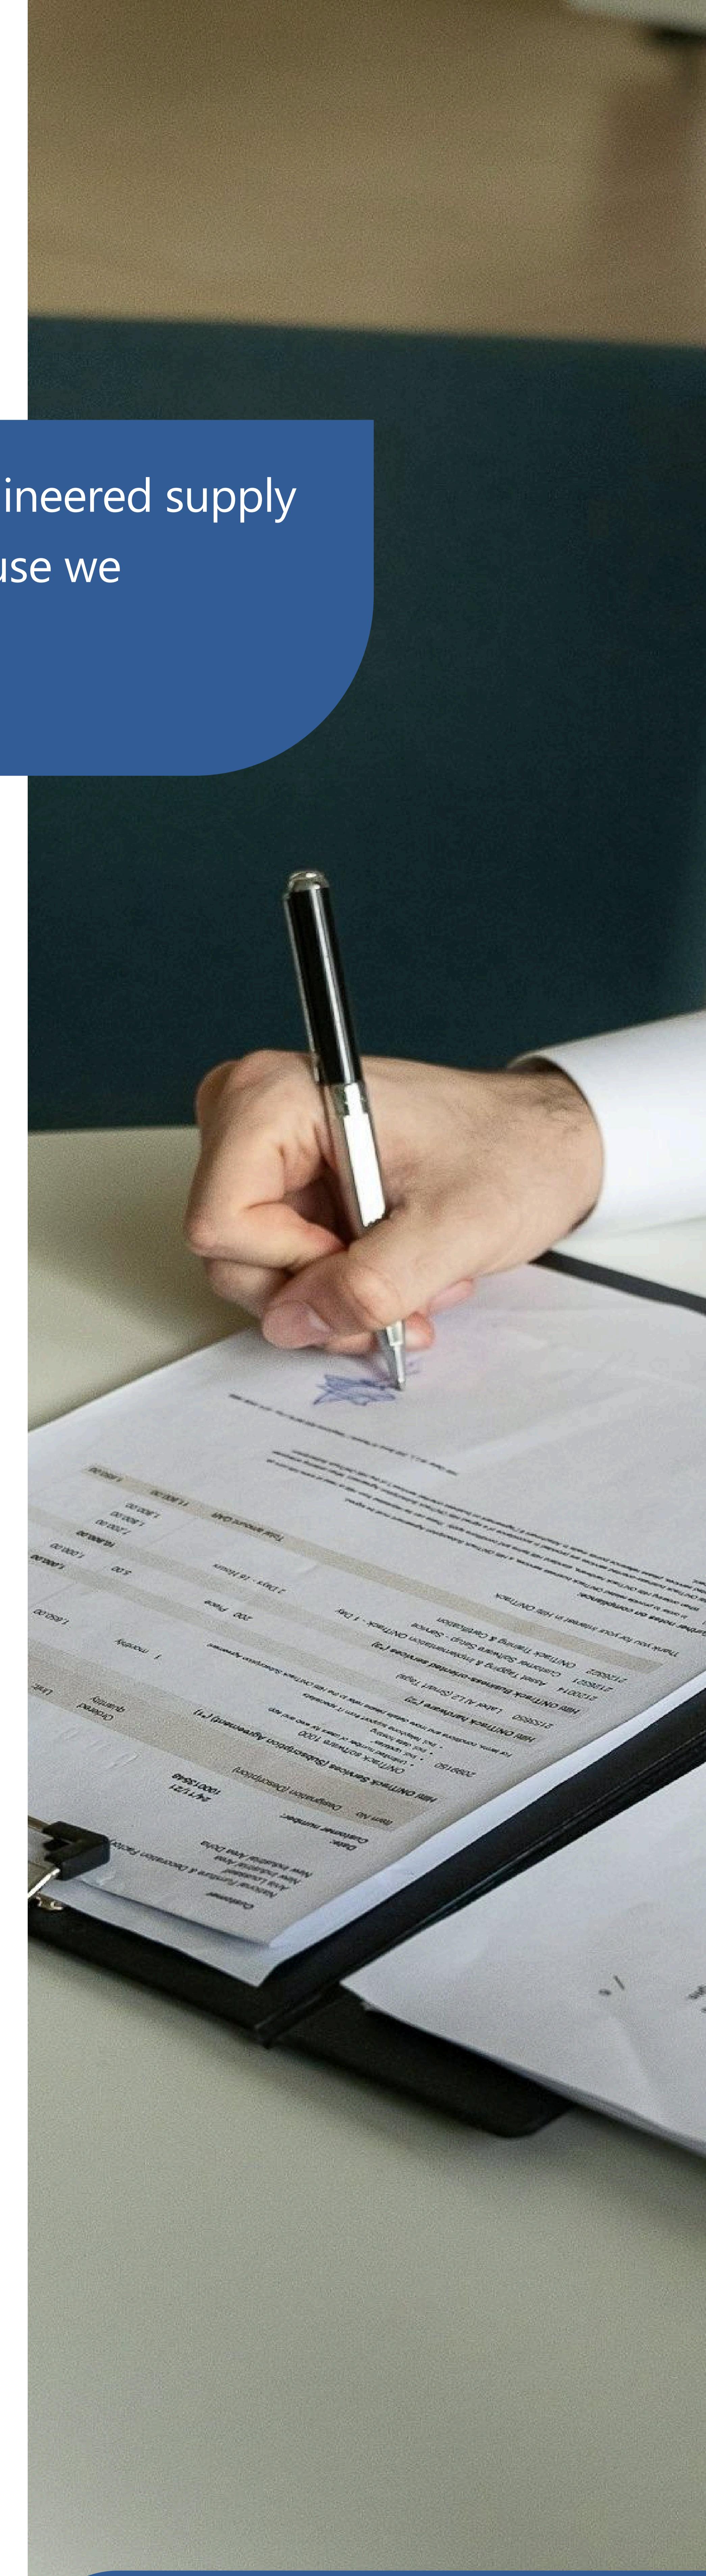

Tailored, Project-Focused Service

From greenfield design support to brownfield retrofits and aftersales assistance, we provide **practical, customized solutions** — even in the most challenging environments.

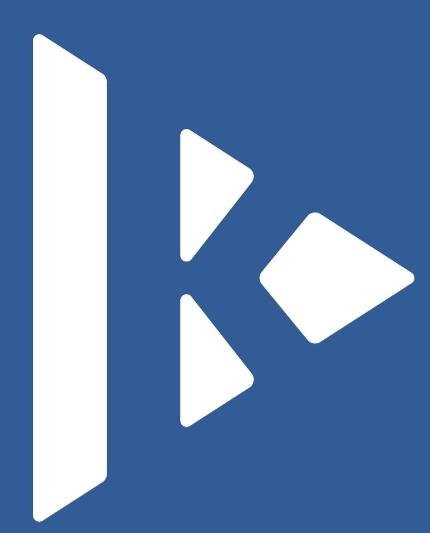

07

EMEA-Wide Reach

With strong connections across Europe, the Middle East, and Africa, we support international projects with local insight and global reliability.

KOMITZ ensures speed, reliability, and global reach — making us the trusted choice for mission-critical projects.

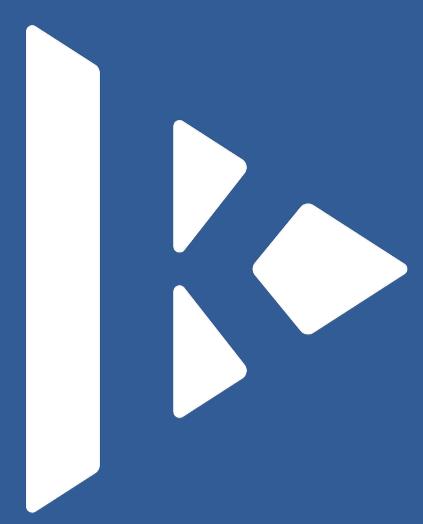

Certifications & Compliance

HSE Compliance

At KOMITZ GmbH, health, safety, and environmental protection are integral to everything we do. We are committed to ensuring that all operations are carried out responsibly, with zero harm to people, property, or the environment. We ensure:

- Every activity is planned and executed in a safe, compliant, and environmentally sound manner.
- HSE is treated with the same importance as technical and commercial priorities.
- All employees, subcontractors, and partners follow approved safety procedures and are supported with training and resources.
- Incidents, near-misses, and unsafe conditions are reported and used to drive continuous improvement.
- Environmental impacts are assessed and minimized across all our operations.
- Safety is everyone's responsibility — and together, we aim for a workplace with zero incidents and lasting positive impact.

Through strict HSE compliance, KOMITZ ensures safe people, protected assets, and a sustainable future.

Certifications & Compliance

Quality Assurance Processes

At KOMITZ GmbH, quality is at the core of everything we do. As a provider of integrated engineering and supply solutions for telecom, mechanical, electrical, instrumentation, fire & safety, and security systems, we are fully committed to delivering services and products that meet or exceed client expectations and comply with international standards. To uphold this commitment and in alignment with ISO 9001:2015 requirements, we focus on the following principles:

Quality at Every Level

Every process, from initial inquiry to final delivery and aftersales, is managed with precision and accountability to maintain the highest quality standards.

Leadership and Engagement

Our leadership fosters a culture of quality, ownership, and continuous improvement, empowering every team member to contribute to excellence.

Process Approach and Risk Management

We apply a structured process-based approach to all operations and identify risks and opportunities to enhance performance and resilience.

Continuous Improvement

We are committed to the ongoing improvement of our quality management system, services, and internal processes to ensure sustained success and customer trust.

Compliance and Standards

We operate in accordance with all relevant legal, regulatory, and contractual requirements, and strive to align with evolving international best practices.

Through structured processes and continuous improvement, KOMITZ guarantees sustainable performance and long-term client trust.

KOMITZ

At KOMITZ GmbH, we believe in building long-term partnerships based on trust, transparency, and performance. Whether you are developing a new facility, upgrading an existing plant, or managing a remote site, we bring the engineering depth, supply chain agility, and technical expertise needed to ensure your project's success — from concept to commissioning and beyond.

Let us be your trusted partner in engineered performance and sustainable value.
